# ACCOR<sup>®</sup> TECHNOLOGY, INC.

## Worldwide Patented Technology

Founded in 1988, ACCOR Technology, Inc. is the industry pioneer and market leader in push-fit plumbing valves.

ACCOR revolutionized the construction industry by introducing a simple, tool-free solution to plumbing. Born out of challenges experienced by contractors, ACCOR's PUSHON<sup>®</sup> technology introduced the idea of simplifying the plumbing method for attaching supply stops—a method that the industry later dubbed as "push-fit" and has since been imitated by many other valve manufacturers.

We transformed the market at a time when plumbing methods had not changed in 50 years—and we have continued to innovate. ACCOR is the only company that provides an increased margin of safety through a patented design of two gripper rings for double pipe contact and a twist-off removal system that ensures no accidental early release.

*"The technology we developed not only made life for plumbers easier but also made the connection to the pipe and fixtures much, much more reliable than compression, soldered or crimped valves—so reliable, we have been able to offer a 10-year warranty on the valve since 1988."*

*~Founder Jerry O'Neill*

### **Proudly Made in the USA.**

Headquartered in Kirkland, Washington, ACCOR<sup>®</sup> Technology proudly manufactures its products in the USA. Our manufacturing plant in East Wenatchee, Washington, utilizes a state-of-the-art manufacturing process with an automated, robotics-controlled line that senses and tests every valve for high quality. We have invested millions of dollars into unique manufacturing technology that allows us to implement the best quality controls while keeping jobs in the United States.

### **We Back Our Products with a 10 Year Warranty.**

No company is worth its salt without standing behind its products. At ACCOR, we offer a warranty that covers not only any product defects but also the associated labor. This exclusive warranty—unmatched by any competitor—demonstrates our confidence in our product performance and quality assurance.

### **Quality Assurance & Customer Satisfaction**

Our company's success comes from a great team proud to be part of the U.S. manufacturing sector. It begins with our superior engineering and drive to innovate. But it is our dedicated culture of quality assurance and customer satisfaction that has propelled us to lead the market with our PUSHON<sup>®</sup> technology.

*Robotic assembly.*

## ENGINEERED FOR LEAK FREE PERFORMANCE

### Design Margin of Safety

The design criteria for all ACCOR<sup>®</sup> Technology's products have a high margin of safety well beyond the standards, backed with the strongest warranty in the business.

### High Tech Manufacturing

State of the art injection molding and polymer material design allow ACCOR to achieve superior valve and coupling performance.

- State of The Art Injection Molding
- Computerized Welding Monitors Each Valve
- Hydraulic Crimping Machines
- Robotic Assembly
- 100% Air Tested and QC

*Hydraulic crimping.*

## PRODUCT TESTING & QUALITY CONTROL

### Quality Control to Back Our Warranty

The production teams' priority is to provide the highest level of quality control through tightly monitored processes and daily testing.

- Daily Hydrostatic Testing
- Production Air Testing with Ultrasonic Leak Detectors
- Hot Water Pull (180°F under direct load)
- Intermittent Shock Testing (125psi - 180psi, 140°F, 30,000+ cycles)

Valves are tested to 1000 PSI and beyond.

Daily hydrostatic testing. PEX pipe fails during test. ACCOR valve remains attached.

## DAILY HYDROSTATIC TESTING

### ACCOR Valves are Stronger than PEX Pipe

During daily hydrostatic testing valves are tested to 1000 PSI and beyond. The PEX pipe fails during test however the ACCOR valve remains attached and intact.

OVER 40 MILLION VALVES INSTALLED SINCE 1988

## THE PUSHON TECHNOLOGY ADVANTAGE

### Innovative Product Design

ACCOR® designed its patented PUSHON® technologies to overcome common problems associated with compression style valves. The unique o-ring design of FlowTite eliminates packing seal leaks, and compression problems. The internal stainless steel gripper ring mechanically attaches to the pipe without tools, and is tested to over 1000 psi. The valves and couplings are removable by twisting off counterclockwise, and are reusable.

### Faster Installs with One-Piece Valve and Attached Flexible Connectors

ACCOR's patented PUSHON® technologies makes its FlowTite valve the easiest and fastest valve and connector system to install. The design of the valve made it logical to attach the flexible connector in the factory. This "original one-piece" valve and flexible connector eliminates leaking field joints and human error providing a trouble free system. Years of in field experience has perfected our hydraulic stainless steel crimps, and High Performance connector construction.

### Corrosion Free, Lead Free and Certified Health Safe

ACCOR's innovative design eliminates internal and external corrosion while introducing a clean look for today's modern homes. ACCOR valves are certified to health standards requested by the EPA and adopted by ANSI.

### Code Acceptance

ACCOR's stop valves are IAPMO and NSF listed and meet requirements of UPC, IPC and NPC of Canada and other state and local codes. For product specific listings please refer to NSF and IAPMO listing websites.

# FlowTite<sup>®</sup> 4ALL<sup>®</sup>

## One Valve Fits All

To solve flaws common to PEX pipe, such as variations in outer diameter, ACCOR added a second steel gripper ring to their FlowTite 4ALL valve. The dual steel gripper ring design effectively doubles contact area with the pipe, ensuring a tight fit for an added layer of safety, while eliminating the need for an insert or other cumbersome workaround's.

### For New Pipe

FlowTite 4All - One Valve Fits All

- ACCOR Technology's FlowTite 4ALL Supply Stop is designed for "clean pipe" applications using PEX, CPVC or Copper pipe.
- One supply stop valve fits all pipes. Our push-fit plumbing fittings provide a fast, reliable solution no matter the application.
- Easy to adjust valve/connector to a no-stress position.
- For floor or wall installation. Everything you need comes in one kit.
- No tools required, just press the stop valve onto pipe. Save time on labor and return service calls.
- One-piece valve/connector construction eliminates joint leaks. We install the job-specific connectors at the factory so you have reliable performance—every time.
- Multiple finishes look great with any style.
- ACCOR's no-stick, positive shutoff handle simplifies water shutoff.

FACEPLATE (T)	Faceplate Only	6.19	10 ea	3 lb

# FlowTite<sup>®</sup> R-SERIES<sup>®</sup>

## Compression Valve Replacement

ACCOR<sup>®</sup>'s FlowTite R-SERIES for replacing old compression valves on existing copper and CPVC pipes completely eliminates the problem of replacing stub-outs due to the bothersome leftover ferrule. It's the only stop valve on the market that installs right over the old brass ferrule. Installation requires only removing the compression valve and pressing the valve over the old ferrule — no need to labor over a new stub-out.

### Compression Valve Replacement

FlowTite<sup>®</sup> R-SERIES - Installs Over Old Brass Ferrule

### The ONLY stop valve that installs over the old brass ferrule

- ACCOR Technology's FlowTite R-SERIES Supply Stop is designed to replace old or leaking compression valves, allowing users to:
- Simplify! Just press the patented ACCOR R-SERIES over old brass ferrule.
- Eliminates the need to remove old ferrule which can cause pipe damage.
- No need to re-use the old valve nut left behind the ferrule.
- Eliminates expensive in-wall pipe stubout replacements.
- Best of all, rely on a 10-year limited warranty for residential construction that includes labor.

## **FLOWTITE<sup>®</sup> R-SERIES<sup>®</sup>**

### **Simplified Compression Valve Replacement**

For years professional plumbers have told us that the biggest problem they encounter in replacing compression supply stop valves is the removing of the old valves' nut and ferrule. Ferrule pullers are hard to use effectively and can damage the pipe. Cutting the old valve off to start fresh usually creates a costly in-the-wall pipe repair project that can easily eat away profits and involve other trades.

### **FlowTite for the Replacement Market**

Years of success have proven that ACCOR<sup>®</sup>'s FlowTite R-SERIES valves install faster and more reliably than hard-to-use compression fittings. The FlowTite R-SERIES valve is designed to install onto pipe with or without an existing ferrule, so it is an excellent solution whether replacing, repairing or remodeling.

### **Innovative Product Design**

ACCOR's patented PUSHON technology enables plumbers to press a FlowTite R-SERIES valve directly over the old brass ferrule. FlowTite's unique o-ring design completely seals off the existing ferrule, while the stainless gripper ring secures the valve to the pipe, forming the same long lasting seal that ACCOR has proven to be reliable with over 40 million valves installed in U.S. home installations since 1988.

### **Saves Time & Money**

The FlowTite R-SERIES product is reliable and quick to install. A plumber could easily replace all of the old compression supply stops in a home as a value added service while increasing per call profits in return. The written ACCOR Technology warranty is a welcomed homeowner protection.

**WHITE VALVES**

**FLOWTITE® R-SERIES® 1/2" Supply Stop Valves**

**\*\* VALVE ONLY**

Product Code	Description	List Price (each)	Carton Quantity	Carton Weight
PO5-3 (R)	FlowTite R-SERIES 1/2" nom. supply stop valve x 3/8" O.D. comp. with escutcheon.	7.85	100 ea	13 lb
PO5-2 (R)	FlowTite R-SERIES 1/2" nom. supply stop valve x 1/4" O.D. comp. with escutcheon.	8.15	60 ea	7 lb

**WHITE VALVES / PVC CONNECTORS**

**FLOWTITE® R-SERIES® 1/2" Supply Stop Valves with High Performance Flexible Connectors**

**\*\* LAVATORY/SINK SUPPLY KIT - Sold in Pairs**

FlowTite R-SERIES 1/2" nom. supply stop with factory attached PVC High Performance flexible connector x 1/2" reinforced polymer IPS nut with escutcheon.

Product Code	Length	List Price (each)	Carton Quantity	Carton Weight
PO5LP15-5 (R)	15"	20.95	50 pair	25 lb
PO5LP20-5 (R)	20"	22.06	50 pair	29 lb
PO5LP30-5 (R)	30"	24.66	25 pair	19 lb

FlowTite R-SERIES 1/2" nom. supply stop with factory attached PVC High Performance flexible connector x 3/8" comp. brass adapter with escutcheon.

Product Code	Length	List Price (each)	Carton Quantity	Carton Weight
PO5LP12-3 (CR)	12"	28.09	50 pair	25 lb
PO5LP15-3 (CR)	15"	29.26	50 pair	29 lb
PO5LP20-3 (CR)	20"	30.31	50 pair	33 lb

\*\* Available with factory installed Shut Off Clip upon request for an additional cost of \$0.30/Each or \$0.60/Pair.

**WHITE VALVES / PVC CONNECTORS**

**FLOWTITE® R-SERIES® 1/2" Supply Stop Valves with High Performance Flexible Connectors**

**\*\* TOILET SUPPLY KIT**

FlowTite R-SERIES 1/2" nom. supply stop with factory attached PVC High Performance flexible connector x 7/8" reinforced polymer ballcock nut with escutcheon.

Product Code	Length	List Price (each)	Carton Quantity	Carton Weight
PO5CP9-7 (R)	9"	10.88	50 each	12 lb
PO5CP12-7 (R)	12"	11.09	50 each	13 lb

PO5CP20-7 (R)	20"	12.31	50 each	15 lb

**\*\* DISHWASHER SUPPLY KIT**

FlowTite R-SERIES 1/2" nom. supply stop with factory attached PVC High Performance flexible connector x 3/8" comp. x 1/2" M.I.P. brass elbow with escutcheon.

Product Code	Length	List Price (each)	Carton Quantity	Carton Weight
PO5LP60-3 (RL)	60"	23.91	25 each	17 lb
PO5LP72-3 (RL)	72"	25.45	25 each	19 lb

**\*\* DISHWASHER/FAUCET DUAL APPLICATION SUPPLY KIT**

FlowTite R-SERIES 1/2" nom. supply stop with factory attached PVC High Performance flexible connector with inline 3/8" comp. tee x 1/2" reinforced polymer IPS nut with escutcheon.

Product Code	Length	List Price (each)	Carton Quantity	Carton Weight
PO5LP4T15-5 (R)	20"	43.75	25 each	21 lb

**\*\* ICE MAKER SUPPLY KIT**

FlowTite R-SERIES 1/2" nom. supply stop with factory attached PVC High Performance flexible connector x 1/4" comp. nut with escutcheon.

Product Code	Length	List Price (each)	Carton Quantity	Carton Weight
PO5IP84-2 (R)	84"	19.31	25 each	13 lb

\*\* Available with factory installed Shut Off Clip upon request for an additional cost of \$0.30/Each or \$0.60/Pair.

**BRUSHED CHROME VALVES**

**FLOWTITE® R-SERIES® 1/2" Supply Stop Valves**

**VALVE ONLY**

Product Code	Description	List Price (each)	Carton Quantity	Carton Weight
PO5S-3 (R)	FlowTite R-SERIES 1/2" nom. supply stop valve x 3/8" O.D. comp. with escutcheon.	7.97	100 ea	13 lb

**BRUSHED CHROME VALVES / BRAIDED CONNECTORS**

**FLOWTITE® R-SERIES® 1/2" Supply Stop Valves with High Performance Flexible Connectors**

**\*\* LAVATORY/SINK SUPPLY KIT - Sold in Pairs**

**IPS Nut**

FlowTite R-SERIES 1/2" nom. supply stop with factory attached braided High Performance flexible connector x 1/2" reinforced polymer IPS nut with escutcheon.

Product Code	Length	List Price (each)	Carton Quantity	Carton Weight
PO5LS15-5 (R)	15"	23.76	50 pair	31 lb
PO5LS20-5 (R)	20"	26.16	50 pair	34 lb
PO5LS30-5 (R)	30"	29.44	25 pair	29 lb

**Brass Adapter**

FlowTite R-SERIES 1/2" nom. supply stop with factory attached braided High Performance flexible connector x 3/8" comp. brass adapter with escutcheon.

Product Code	Length	List Price (each)	Carton Quantity	Carton Weight
PO5LS12-3 (CR)	12"	30.44	50 pair	28 lb

### CAUTION:

Flux contains corrosive chemicals that can damage plastic & metal components. DO NOT ALLOW FLUX TO COME IN CONTACT WITH FlowTite PRODUCTS. Do not use bleach, cleaners containing acid, or any other corrosive chemicals on FlowTite products. ACCOR Technology, Inc. does warrant any failure due to faulty installation or abuse, stress condition, excessive water hammer, over torque, damaged or defective pipe, exposure to below freezing conditions, excessive heat and/or corrosive chemicals and/or other destructive materials.

# INFORMATION

## FREIGHT

**FREIGHT TERMS:** All shipments are F. O. B. shipping point. Shipments from factory less than \$2,500 U.S. are F. O. B. factory. Factory shipments of \$2,500 and over within the continental U.S. will be prepaid and allowed when made at the lowest motor carrier transportation rate. "F. O. B. shipping point" or "F. O. B. origin" indicates the buyer takes responsibility for the goods when the goods leave the seller's premises.

## TERMS OF SALE

All sales are F. O. B. shipping point.

## PAYMENT TERMS

Invoices are due and payable 30 days from the date of invoice. A 2% cash discount is allowed on net amount of invoice if paid on or before the 10th of the following month. Invoices dated on or after the 25th of the current month will be considered as dated the first of the next month. Postmark on envelope will be considered date of check. Discounts not available on freight or surcharges.

## GENERAL

All discounts are for orders shipped to one destination.

## PRICES

All prices subject to change without notice. Orders will be invoiced at prices at time of shipment. A 5% surcharge will be added to orders of less than carton quantity.\*

## RETURNS

Any return of any products must be approved by ACCOR Technology, Inc. and issued Return Goods Authorization number (RGA). Absolutely no returns will be accepted or replaced without an RGA#. Products which are obsolete or made to order CANNOT be returned. ACCOR reserves the right to deny any RGA request of non-defective product. Approved requests will include a service charge of 25% of the net purchased price of the goods plus all transportation expenses. Loss and/or damage claims must be reported within 5 days of receipt of order. Material returned with our consent will be replaced less the value of the freight and 25% handling charge.

## WARRANTY

**ACCOR**<sup>®</sup> TECHNOLOGY, INC.

**FlowTite**<sup>®</sup>

### 10-YEAR LIMITED WARRANTY

ACCOR<sup>®</sup> Technology, Inc. warrants to the original consumer purchaser that FlowTite<sup>®</sup> supply stop valves shall be free from defects in material and workmanship for a period of 10 years in residential use or 1 year in commercial use from the date of purchase as shown on purchaser's receipt.

In the event that this product fails to function during the warranty period due to proven defects in material or workmanship, ACCOR will pay to the consumer the prorated reasonable cost including labor, of removing the defective valve and replacing it with a new FlowTite valve.

This will be the only remedy available to the consumer for defective FlowTite<sup>®</sup> valves. In no event will ACCOR be liable for damages caused by installation, re-installation, repair or replacement, incidental and consequential damages or damages to property, its contents or its occupants. This warranty is void when valves are used on pipe that does not meet the specifications or otherwise conform to ASTM standards for copper, CPVC or PEX pipe.

Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages in which case, the above limitations may not apply. In the event of a dispute as to whether a product defect exists, ACCOR shall have the right to have the valve inspected by a third-party inspector at ACCOR's expense. In such case, the consumer shall produce the valve within 20 days of written request from ACCOR. Failure to do so shall void any warranty.

ACCOR assumes no responsibility for any failure of the valve due to faulty installation, abuse, unreasonable stress condition, excessive water hammer, over torque, damaged, defective or out of spec pipe, or exposure to freezing conditions, excessive heat and/or corrosive chemicals and/or other destructive materials.

The Warranty specified above is an exclusive warranty of ACCOR Technology, Inc. pertaining to FlowTite<sup>®</sup> supply stop valves and is in lieu of all other warranties including the implied warranties of merchantability of fitness for a particular purpose.

The warranty gives you specific legal rights and you may also have other rights which vary from state to state.
