Same dependable material used
by Uponor[®] for in-wall expansion
fittings.

ELIMINATE UNSIGHTLY LONG PEX STUB OUTS

New FlowTite[®] 4ALL[®] One-Piece Expansion Valves

Do you prefer an expansion application on PEX pipe? The new FlowTite[®] 4ALL[®] Expansion Valve offers our reliable valve, factory installed on an expansion component. ACCOR Technology's innovative design is like no other because the expansion component is reusable.

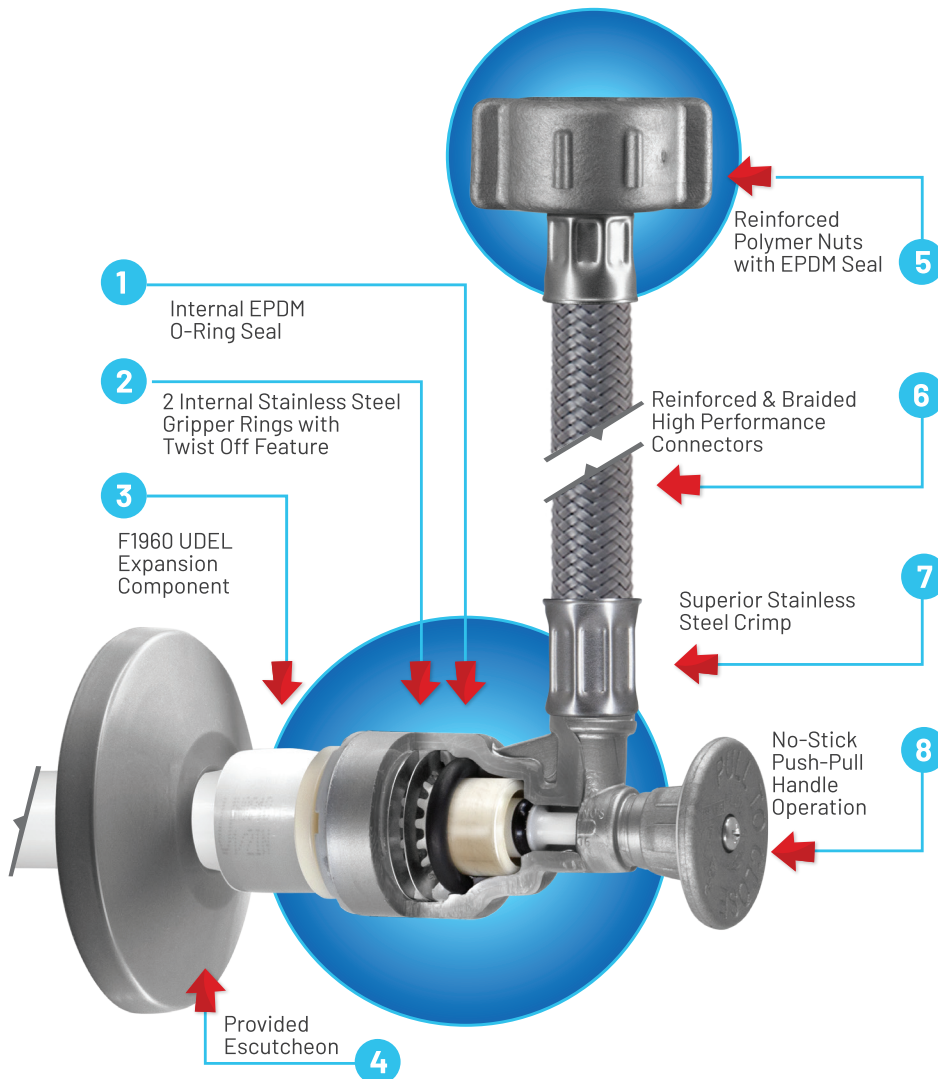

These valves can be installed flush-to-wall and still be replaced in the future without requiring a long, unsightly stub out. Just twist old valve off expansion component and push on a new FlowTite[®] 4ALL[®] Valve. The ACCOR solution creates a clean, finished, residential look.

- SAME DEPENDABLE FLOWTITE[®] VALVE
- 10 YEAR WARRANTY INCLUDES LABOR
